

# Angel

(Words and Music) – Thom Sebastian C 2005

Got an angel on my shoulder she whispers in my ear  
Take your love to a higher place somewhere away from here  
Away from all the madness the sadness and the hate  
Got an angel on my shoulder she's telling me not to wait – don't wait

There's a higher love that calls for me like one I've never known  
And an angel on my shoulder says I'll find it on my own  
Can an angel know just what it's like to walk these streets alone  
She whispers – Trust your heart to lead you home  
Go home

Got an angel on my shoulder she whispers in my ear  
Take your love to a higher place somewhere away from here  
When I ask her will I find my way - she says you're not alone  
Love will find the ones who trust their hearts to lead them home  
So go home
