

Where Love Never Goes

(Words and Music) – Thom Sebastian C 2005

In a different time and in a different place
You and I would not be standing face to face
Cause we lived a lie and we sold our souls
And abandoned our dreams on the side of the road where love never goes

In the name of us and in the name of hope
You and I became two people that we'll never know
And our spirits died and we ceased to grow
And we wander around in the darkness at night where love never goes

Strip away the pride and see two lost and lonely souls
We're only you and I
Who wanna weather the storm but must come in from the cold
And we hear our future calling but the fear of being alone
Keeps us from walking away from this place where love never goes
